

The logo consists of three interlocking loops: a blue one at the top, a black one on the left, and a green one on the right. A registered trademark symbol (®) is positioned to the upper right of the loops.

# Neuro Equilibrium

**Cutting-edge technology for  
diagnosis and treatment of  
vertigo & balance disorders**

# COMPUTERIZED DYNAMIC VISUAL ACUITY

## For screening of Vestibular impairment

Dynamic Visual Acuity is used for:

- Early detection of vestibulotoxicity
- Detection of bilateral peripheral vestibulopathy
- Rehabilitation tool
- Assessing outcome of rehabilitation

### How it works:

DVA assesses the function of the VOR in maintaining the image on the fovea of the retina during head movement.

Defective VOR results in slippage of image resulting in blurring of vision.

**NeuroEquilibrium™** provides systems for comprehensive management of vertigo and balance disorders by breakthrough innovations. Our strategy is to set up specialized advanced vertigo and balance clinics across the world in collaboration with leading ENT and neurology clinics and multi-speciality hospitals through:

- Neurotological evaluation with our suite of world class diagnostic equipment
- A team of neurotological specialists.

We are India's first robust diagnostic platform helping doctors diagnose and treat vertigo and balance disorder across the world.

Let's **get together** to  
restore **balance**
