

The logo consists of three interlocking loops: a blue one at the top, a black one on the left, and a green one on the right. A registered trademark symbol (®) is positioned to the upper right of the loops.

Neuro Equilibrium[®]

**Cutting-edge technology for
diagnosis and treatment of
vertigo & balance disorders**

CRANIOCORPOGRAPHY

Fast and Simple Investigation

NeuroEquilibrium™ Craniocorpography (CCG) is a neuro-otological investigation to evaluate the vestibulospinal reflex, which is responsible for maintenance of balance during gait testing. The protocols evaluated by this screening include:

- Romberg Test
- Tandem Walking
- Unterberger's / Fukuda Test

NeuroEquilibrium™ provides systems for comprehensive management of vertigo and balance disorders by breakthrough innovations. Our strategy is to set up specialized advanced vertigo and balance clinics across the world in collaboration with leading ENT and neurology clinics and multi-speciality hospitals through:

- Neurotological evaluation with our suite of world class diagnostic equipment
- A team of neurotological specialists.

We are India's first robust diagnostic platform helping doctors diagnose and treat vertigo and balance disorder across the world.

Let's **get together** to
restore **balance**
